

2001 61' Buddy Davis

An incredible opportunity and value in today's marketplace.

The current/original owner had the boat built from Buddy Davis in 2001 and she has been maintained by an extremely knowledgeable captain and crew since new.

A couple of the items during this refit period included major overhauls of both Caterpillar 3412 engines, complete paint job, new teak cockpit decks/covering boards, an extensive upgrade of electronics and A/V equipment, system replacements, (2) new Northern Lights generators, new ice chipper, new Sea Recovery water maker, new interior soft goods, and the list goes on. All records and invoices are documented and available to review upon request by interested parties.

This is truly an incredible offering and value for a 60' class custom boat with a 4-stateroom layout and Caterpillar power. She is an absolute "must-see" for anyone looking in this marketplace!
